Computer Science 2 Project
Group Progress Report
3rd Quarter

Week 1 - Jan 16, 2026

GOALState your goal for the Week
Make progress on the log in and log out feature for the project program
Make progress on option to (create, check, record) an attendance checker for the project program
Continue revising / updating project draft

STRENGTH

Willing to explore on the requirements needed to implement the project features

AREAS FOR DEVELOPMENT

Learning MySQL Database functionality and manipulation
Learning how graphical user interfaces function

STRATEGY FOR SUCCESS

Decide on the necessary technologies for implementing the project program
If needed, make a code draft for the project program
Divide the tasks between both members
Once done with the 2 features, test their functionality and, if needed, add revisions.

Team Members:

| DATA COLLECTED |
| State/list the data collected relevant to your project |
| Since there is a log in and log out program feature, it is likely that a database is needed. Aditionally, the setings feature (contents of for the project would need a specific GUI, though UI design is designated for 4th quarter |

Gabriel Aaron L. Alve

Claire L. Orejola

| PROGRESS |
| State the progress you have made so far by the end of the week |
| Revised problem statement and features part of project proposal based on Project Presentation comments

Made Progress on the Log in feature, and planned to add a sign up feature |
